

Maintenance on the move

Save time and money with cloud-based maintenance

The key advantages of INEXTIA include a user-friendly layout, easy access and simplicity of the system. There are no tricky installations, back-up routines and user expert configurations.

INEXTIA is 100% cloud-based with a simple user interface. You can access the system from your computer, laptop or tablet. Minimum training is required, and you can easily access the system with a personal login.

- **Minimum training costs**
- **Save money on maintenance and IT**
- **A platform independent software**
- **Hosted solution to avoid technical maintenance**

“With cloud-based maintenance, everybody has access to the system from any location. We can easily report defects on the go. INEXTIA makes maintenance easy for us.”

COLAS DENMARK A/S

Colas

Reduce operating costs

INEXTIA creates value through digitalization and efficiency. You work in a simple job list which gives you access to technical information and a great overview. This saves your maintenance department valuable time.

You can manage and optimize:

- 🔧 **Asset information and components**
- 🔧 **Maintenance jobs and tasks**
- 🔧 **Procedures and instructions**
- 🔧 **Spare parts and stock**
- 🔧 **Reports and analysis**

Analytics

Analyze any relevant combination of data from INEXTIA. You can easily export data to Excel or create a report and receive it in your mailbox.

You can:

- Subscribe to custom made reports
- Analyze data efficiently
- Identify how to reduce operation costs

Document Management

Efficient workflow to electronically store, update and distribute documents across your organization.

You can:

- Search the document content
- Access documents online through a link
- Access the newest document version
- Control revisions

Job List

Plan, structure and manage maintenance jobs electronically to improve productivity. With a structured job list, you reduce technical breakdowns.

You can:

- Access job related documents
- Plan and structure jobs electronically
- Add spare parts to a job
- Report directly to the management

Forms

Submit information and reports in a well-known and consistent manner.

You can:

- Design and upload checklists to SERTICA
- Consistent data collection
- Elimination of huge email attachments and hard copies

INEXTIA App

The INEXTIA app offers the possibility of managing maintenance jobs and forms when you are on the move. You can create, activate and finalize jobs directly from your INEXTIA app. Each job has a short job description, job history and details about the related components. If you have the Forms module, you can also create, fill in and submit forms without attaching documentation.

You can:

-  **Fast and flexible maintenance management from you mobile**
-  **Overview of current and finished jobs and forms**
-  **Access to documents and to previous and denied forms**
-  **Attach pictures from your mobile**
-  **Increased productivity and efficiency**
-  **Elimination of papers**

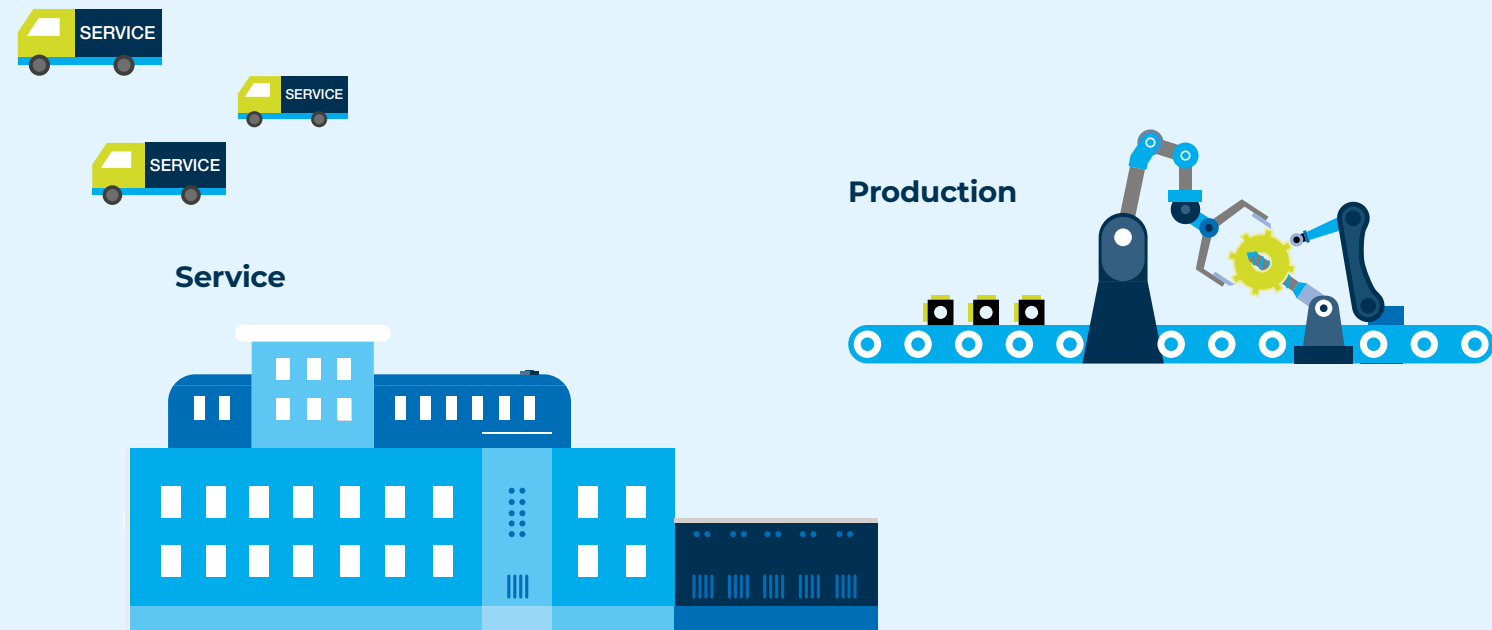

Defect reporting from your INEXTIA App

Report defects electronically directly from the INEXTIA Job App. Defect reporting can be ad hoc maintenance tasks and jobs, which are found and located on the move. Reporting makes it possible to measure and follow up on unforeseen tasks.

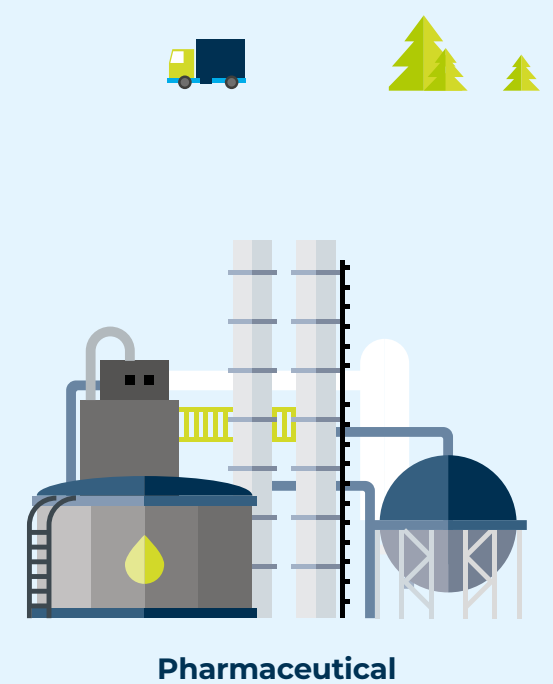

“It eases our workday that we can plan and delegate jobs from mobile devices. INEXTIA saves us time because our employees always have an overview and access to required information and maintenance history.”

Optimization and efficiency for

all types of companies

Unique flexibility makes INEXTIA Maintenance fit all types of businesses, regardless of industry and size

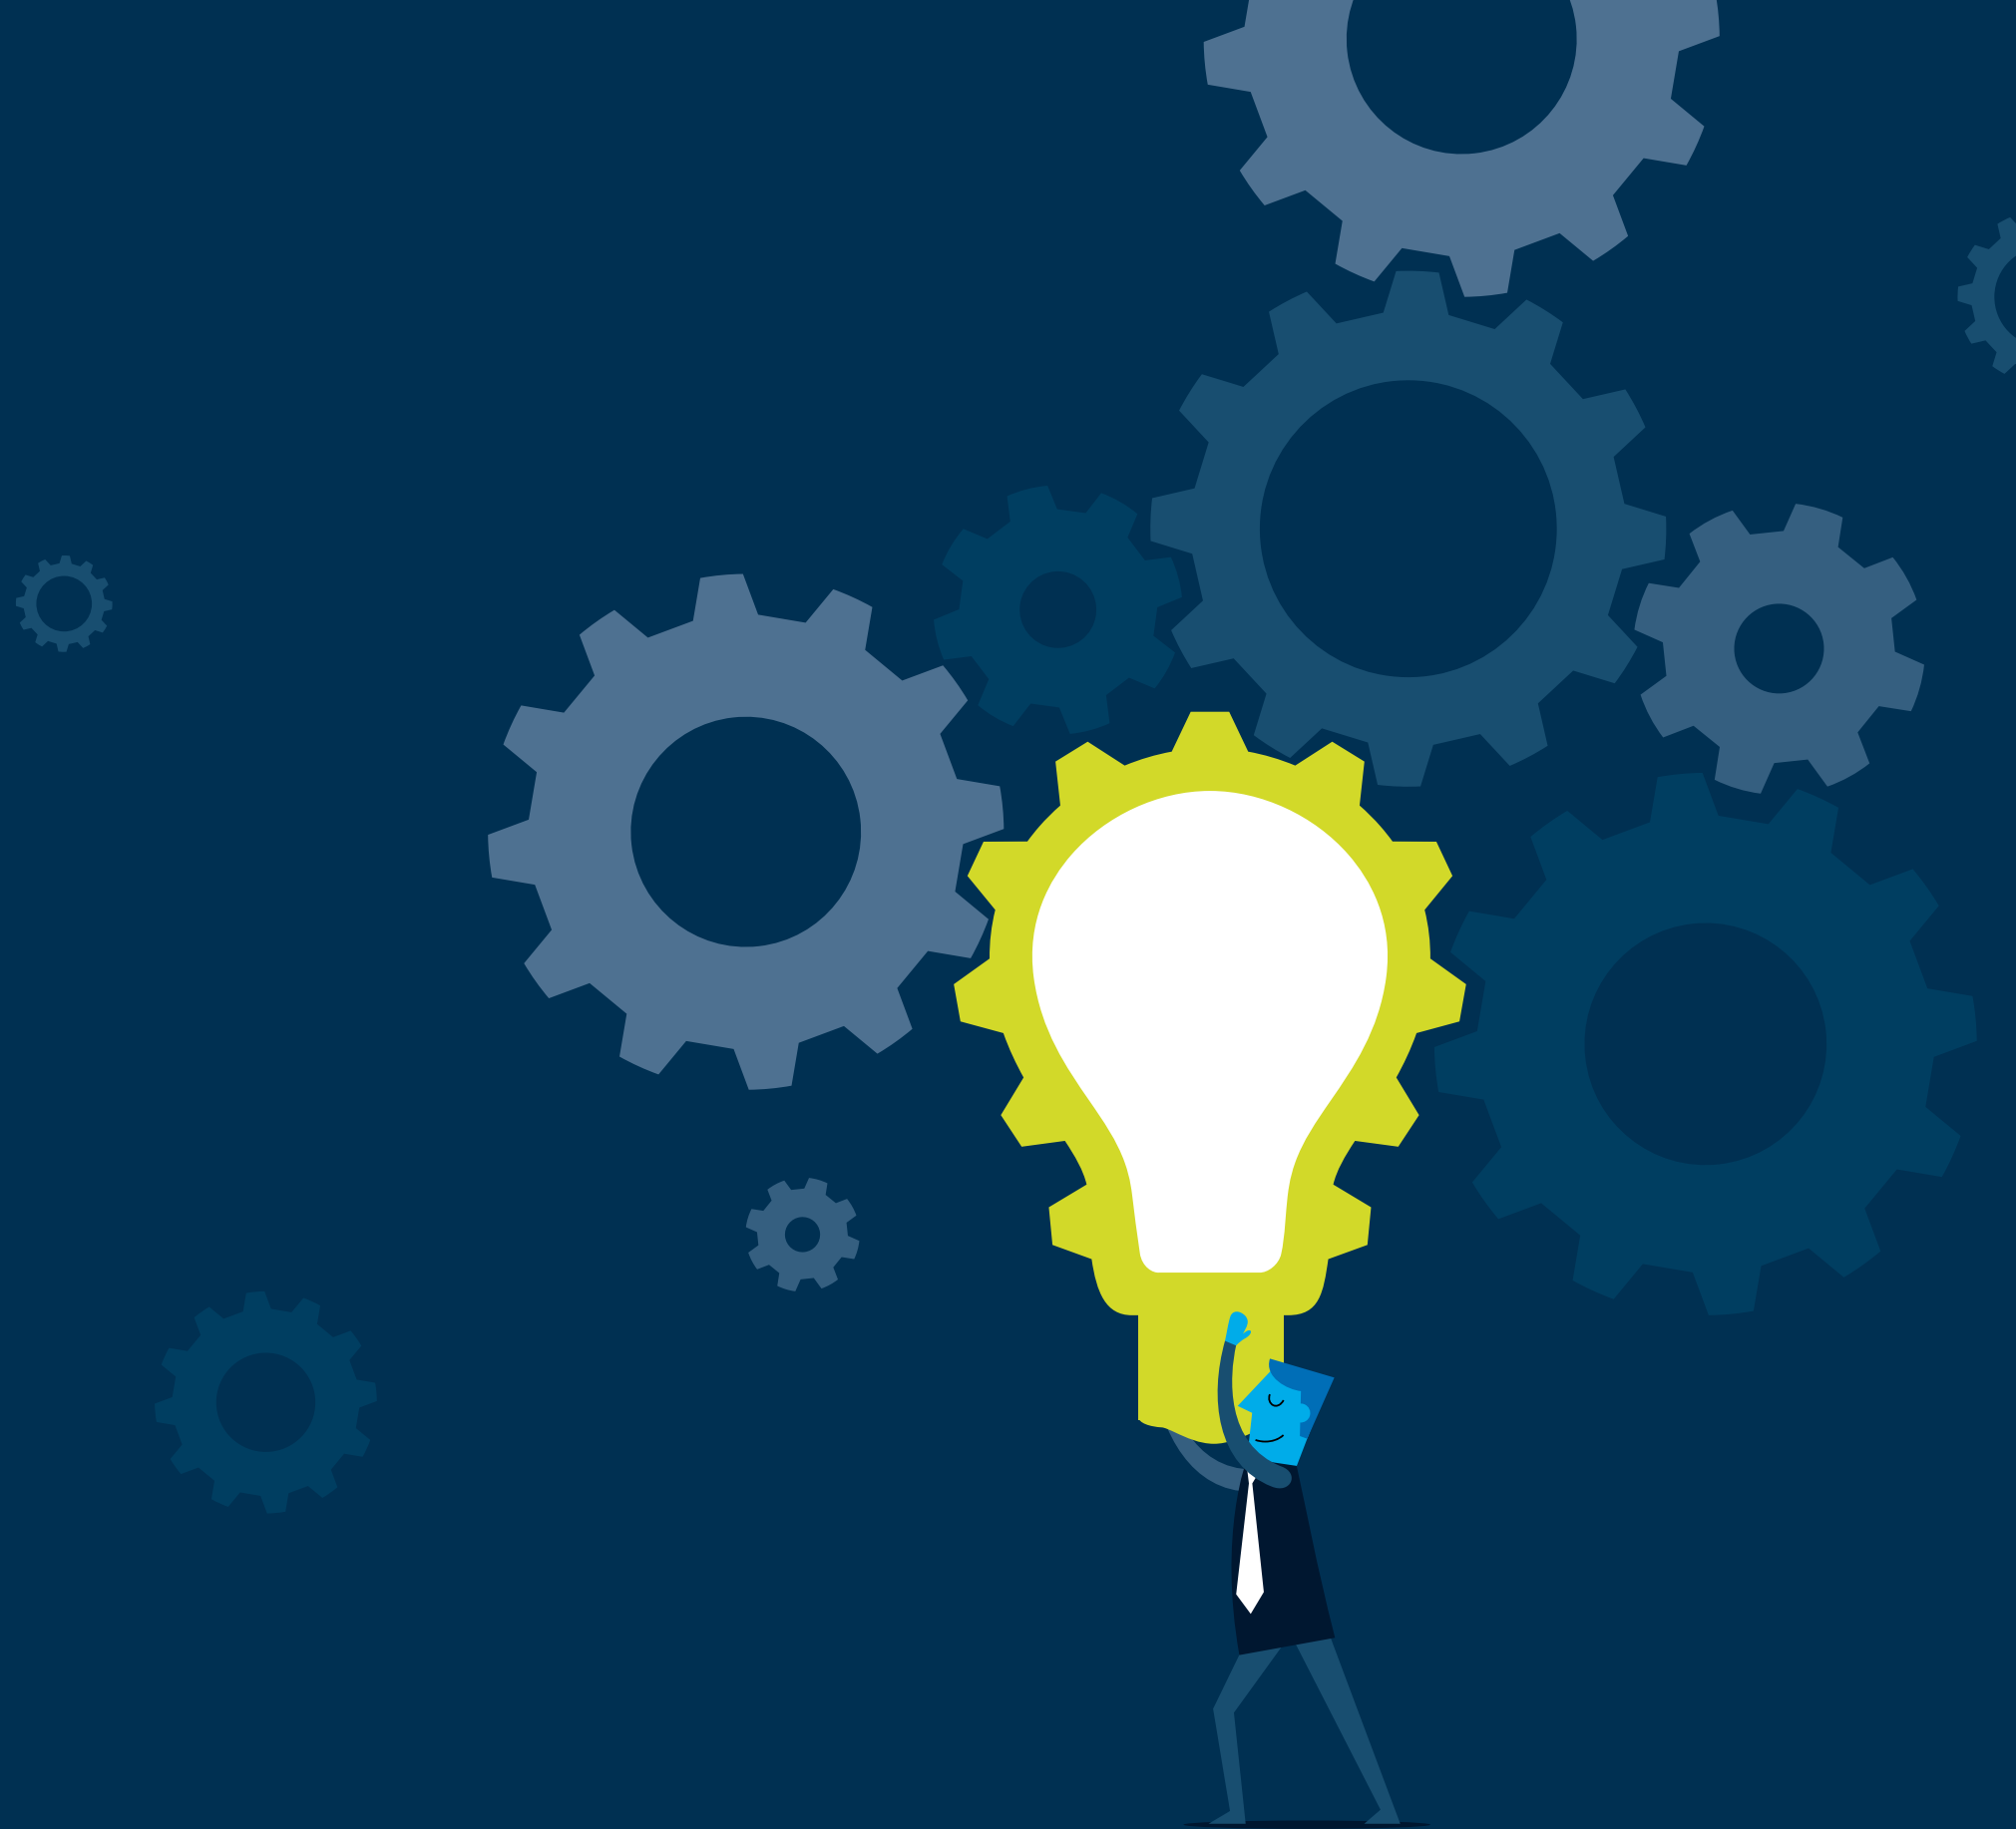

More than just software

INEXTIA is more than just a software system. We believe in collaboration and partnership, and we know that the right service and support makes all the difference in the world.

That is why we make it our business to go beyond what is expected. Our consultants are with you every step of the way and will help you implement your solution to ensure a smooth process.

If you have any problems or inquiries, help is never more than a phone call away. We offer consulting, training courses, and, of course, daily customer support. Support issues are handled immediately by software experts who know the solution and who can offer the very best guidance.

INEXTIA is a web-based maintenance system creating value through digitalization, efficiency and savings on internal IT-operations. No matter your location, you can document and manage maintenance - e.g. reporting, maintenance jobs, defect reporting and maintenance history. Work in a simple task list which saves your maintenance department time and money.

Logimatic is the software company behind INEXTIA. We have more than 30 years of global experience in development, sales, implementation and support of in-house developed software. Our wide experience is built through numerous implementations of software solutions worldwide. It has given us a unique knowledge and makes us more than just a system supplier.
